MIXED BORDERS

Not a grass in sight!

Mixed borders need to make a comeback.
Shrubs and perennials have been the “mainstay” of British Borders for as long as can be remembered.

Shrubs are back in fashion!

These include Berberis, Hebe, Hydrangers, Osmanthus and Skemia.

And why not!

They provide interest the whole year round.

They add structure and texture to the border.

Think about a new mixed border for
your garden this year.

Anne Smith Designs can help you do this.
